will get food support, enhance their livelihood skills, purchasing power and self-reliance on both sides of conflict area

65 organizations and more than 300 specialists

will be involved into information management, assessment support and advocacy events following protection mainstreaming principles under ACCESS activities

People in Need (PIN) is the biggest non-profit organization in Central Europe focusing on humanitarian aid, development, cooperation, human rights and social integration. PIN has a long-lasting presence in Ukraine starting from 2003 and was in position to provide immediate humanitarian assistance after the onset of the conflict in August 2014. PIN has been implementing a number of emergency food, NFI, shelter, protection, livelihoods, WASH, medical and cash-based interventions along and on both sides of the frontline.

Action Contre La Faim (ACF) is an international non-governmental organisation fighting hunger in the world established in 1979. Its mission is to save lives by eradicating hunger through the prevention, detection and treatment of malnutrition, particularly during and after emergencies related to conflict and natural disasters. ACF has opened a mission Ukraine in the end of 2014 and has been operational since summer 2015 establishing multi-sectorial humanitarian intervention to provide food assistance, access to water and hygiene products as well as psychological support for people affected by the conflict.

Doctors of the World UK (DOTW/MdM) is the British chapter of the Médecins du Monde global network. DOTW/MdM is an independent humanitarian movement working in the United Kingdom and abroad to empower excluded people to access healthcare. DOTW/MdM provides medical care, strengthens health systems and addresses underlying barriers to healthcare. MdM has been operating in Luhansk oblast of Ukraine since August 2015.

ACTED is a French humanitarian organization present in 35 countries and supporting over 11 million beneficiaries. We work to save lives and support people in meeting their needs in hard to reach areas. In Ukraine, ACTED with its partner IMPACT responded to the crisis through the REACH Initiative by providing information management and assessment support for evidence-based aid planning and delivery. ACTED/REACH led the interagency humanitarian needs assessments to inform the 2017 Humanitarian Response Plan. Additionally, ACTED/REACH are providing information management support and capacity building to humanitarian agencies and clusters through its IM Hub in Sloviansk.

ACCESS

TO MULTISECTORAL HUMANITARIAN
ASSISTANCE PROJECT

Funded by
European Union
Civil Protection and
Humanitarian Aid

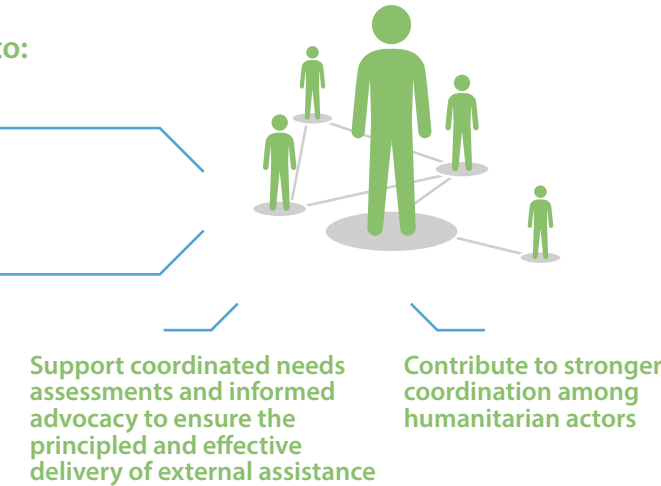

ACCESS TO MULTISECTORAL HUMANITARIAN ASSISTANCE

is a project implemented by a consortium of four major international organizations in Eastern Ukraine: People in Need (PIN), Action Contre La Faim (ACF), Doctors of the World (DOTW/MdM) and ACTED in partnership with IMPACT Initiatives. The project aims to capitalize on each organization's respective technical expertise in various sectors and to further improve relief response through better coordination and synergy. ACCESS will provide humanitarian assistance to 163,775 citizens living in conflict affected regions of Ukraine.

The project is designed to:

Increase sectoral and geographical synergies in response to emergency needs in key priority areas

Strengthen protection for highly-vulnerable groups and improve social cohesion and resilience through protection mainstreaming and community mobilization

The Project aims to improve access to multisectoral assistance through a combination of different sectorial activities:

Health

- Provision of primary health care consultations and free drugs
- Strengthening of medical referral system and provision of conditional cash for medical referral expenses to vulnerable people along the line of contact
- Provision of specialized trainings for health and non-health staff
- Donation of consumables and medical equipment

Mental Health, Psychosocial Support and Care Practices

- Psychological and psychosocial support (PSS) through individual or group consultations in communities affected by the conflict
- Awareness sessions on different consequences of war and post-war states related to crisis to internally displaced persons (IDPs) and host communities
- Support of pregnant and lactating women and children under 2 years in baby-friendly spaces
- Improve care practices for infants
- 24/7 PSS hot-line counselling and referral support

Food Security and Livelihood (FSL)

- Grants for small-scale livelihoods for vulnerable rural households
- Practical trainings provided by practitioners in respective fields
- Cash assistance for the most vulnerable households to meet their basic needs
- Cash-for-work for unemployed able-bodied people living along the contact line
- Distribution of individual food vouchers/kits

Water Sanitation and Hygiene (WASH)

- Emergency water supply (water trucking, water pumping and bottled water distribution)
- Water supply system and sanitation rehabilitation (social institutions and public infrastructure)
- Solid waste management
- Hygiene kits distribution

Shelter and durable winterization

- Damage assessments to determine scale and/or type of intervention
- Provision of conditional cash grants for repairs of war-damaged homes
- In-kind repairs for war-damaged private homes, apartment buildings
- Emergency window installation
- Installation of solid fuel furnaces and provision of firewood
- Repairs for war-damaged social institutions

Assessments, Information Management and Advocacy

- Facilitation of two follow-up multi-sector needs assessments to improve assessment coordination and joint analysis for humanitarian actors
- Information management & assessment support and capacity building for field actors
- Handover of coordination shelter tools to appropriate national and local authorities and verification exercise of damage database
- Development and promotion of Advocacy Strategy and joint Action Plan on humanitarian access and protection needs
- Facilitation of focused dialogue with international community to increase the effectiveness of advocacy efforts

Each activity is under the Protection mainstreaming umbrella and in respect with **key protection mainstreaming principles**

- Prioritize safety and dignity, and do-no-harm – prevent and minimize any unintended negative effects of our intervention which can increase people's vulnerability
- Meaningful access – arrange for people's access to assistance and services in proportion to need and without any barriers
- Accountability – set-up appropriate mechanisms through which affected population can measure the adequacy of our interventions and address their concerns and complaints
- Participation and empowerment – support the development of self-protection capacities and assist people to claim their rights
